4-H Valentine Dance Raises Camp Funds

A large crowd was present in the Sundance Hall Friday evening for the annual Valentine Ball that earned over $1,274 to go toward Camp He-Ho-Ha for Crippled Children at Lake Isle.

Eleven 4-H Clubs took part in the event by naming queen contestants and selling tickets for votes and lucky draws.

Winner of the Queen's crown was Miss Patricia Orchison, 16-year old daughter of Mr. and Mrs. J. Orchison of Fallis. A member of the Fallis Food Club, she is a Grade 11 student at the Seba Beach High School.

Crowning ceremony was performed by Miss Debbie Cole of Keephills, the Queen of last year's event. She also presented jewellery prizes to the two princesses who placed second and third, Miss Kathy Cole of the White Rose Beef Club and Miss Shirley Smithaniuk of the Spruce Grove Multi Club.

All contestants were introduced to the audience and presented with rose corsages by Miss Debbie Cole. Mr. Jim Ferrier, leader of the Sundance Club, was master of ceremonies.

Participating clubs and their representatives were: Blueberry Beef, Kathy Wendel; Fallis Food Pat Orchison; Duffield Beef, Barbara Hickie; Duffield Needle, Sherry Brown; Drayton Valley Beef, Marilyn Rasmussen; Lakemere Beef, Brenda Adam; Moon Lake Beef, Karen Tufty; Pembina Beef and Field Crops, Shirley Hutchinson; Spruce Grove Multi, Shirley Smithaniuk Sundance Beef and Garden, Dorcas Hilts; and White Rose Beef, Kathy Cole.

The proceeds from last year's contest were used by the Stony Plain Regional 4-H Council to build a model barn at Camp He-Ho-Ha, and 4-H families stocked it with animals to give handicapped children an opportunity to see and pet farm animals.

Winners of the lucky draws were: 1st, Mrs. Phyllis Tufty of Moon Lake, $50.00; 2nd, Miss Linda Berry of Fallis, $30.00; and 3rd, Mrs. Ann Prociuk of Gunn, $15.00.

Councils To Meet

Another meeting between the Drayton Valley Town Council and the Parkland County Council is being arranged to discuss areas of mutual concern including fire protection, policing and the recreation program.

The meeting had been planned for the County Office in Stony Plain on Monday, February 17th but some members of the Town Council were not free to attend on that date and an attempt is being made to arrange a meeting on a date suitable to all members of both corporations.

Board Reaffirms Decision To Build Evansburg School

A meeting of the Board of the Edson-Stony Regional High School District No. 2 was held in Evansburg on Tuesday, February 11th and newly appointed representatives from the County of Parkland No. 31, Mr. R. A. Bailey and Mr. George Mann signed the required declarations of office.

Mr. George Monsma was elected acting chairman and Mr. R.A. Bailey acting Vice chairman, to act until the next regular organization meeting.

The following resolution was also unanimously carried: "that this Board affirm it's determination to build a Regional High School on the site at Evansburg as approved by the former Board and by the Department of Education, and further, that the matter of the plebiscite will be dealt with at such time as necessary amendments to the School Act are made".

False Alarms Not Funny

The Drayton Valley Fire Department was called out at 2:30 a.m. Sunday on what proved to be a false alarm.

Six men turned out to man the truck in its futile round of the town. Wages for the firemen for the alarm amounted to $30.00 plus expenses for moving the vehicle.

Town officials pointed out Monday that if the alarm was sounded as a joke, it was a pretty sick one. Besides the expense to taxpayers there is the ever-present possibility of accident and hazard to the men who respond to the alarm.

Fish Planting Should Provide District Anglers More Sport

Fish planting in western Alberta by the Fish and Wildlife Division of the Alberta Department of Lands and Forests indicates increased fishing opportunities for district anglers.

In the Evansburg district, Leaman's Beaverdam (53-11-W5) was stocked last June with 2,000 yearling rainbow trout.

In the Stony Plain district four lakes were stocked in May with rainbow trout. Big Chickakoo received 10,000 fingerlings; Sauer Lake, 27,000 fingerlings; Cottage Lake, 9,000 yearlings; and Star Lake, 10,000 yearlings.

Sardine Lake, near Carnwood (NE 1/4 32-48-4-W5), was stocked in July with 1,700 yearling rainbow trout to go along with the many perch already well known to area fishermen.

In the Alder Flats district, Rose Creek received two plantings last summer. In June 1,500 rainbow yearlings were planted at 32-42-6-W5 and in July 5,200 brown trout fingerlings were planted at 21 and 31-42-6-W5.

The Edson and Hinton areas were planted with rainbow trout in several locations and Eccles Lake (6-53-22-W5) and Kinky Lake (6-50-26-W5) received plantings of splake.

Figures for each species released across the province during the year are: Brown Trout, 159,980; Golden Trout, 10,200; Lake Trout, 182,575; Rainbow Trout, 2,959,360; Kokanee, 138,040; Splake, 6,800; Pike (eggs) 30,000; Pike (yearlings) 5,000; Walleye (eyed eggs) 1,165,00; and Perch 11,200.

The planting program is concentrated in the more accessible areas to enable the maximum number of anglers to try their luck.

Council Meeting

DELEGATES CRITICIZE LICENSING BYLAW

Representatives of the Drayton Valley business community were present at last Thursday's regular meeting of Town Council to seek information on the new Licensing Bylaw that has substantially increased the fee paid by many businesses.

The large group of business people were generally critical of the change and were particularly interested in determining the base used in determining the license fees levied. Many are now paying double or more than the business tax previously paid.

In its attempt to justify the change, Council pointed out that inequities existed under the previous legislation based on the area used and that some firms have been effected very little by the change, possibly because they were overpaying previously.

Council also indicated that there are still probably many "bugs" that have to be ironed out of the new bylaw and requested written comments from those who felt their license is too high.

Mayor Henry Shimbashi outlined the method used in setting the fees which he described as a combination of factors including legislation from other towns, previous year's business tax levies, type of business and a period of trial and error.

It was noted that the bylaw has been under consideration since last August and has been redrafted several times. It was undertaken, delegates were told, in expectation that the new method would prove more equitable to all concerned but that Council is prepared to make changes as they are required.

COUNCIL BRIEFS

At its regular meeting last Thursday Town Council was informed of the findings the Gas Inspector regarding the old Town Office building and the Public Works Garage heating units. Both have burned out burners and plans were underway to repair the garage unit when the weather moderated.

In the case of the Chiropractic Clinic it was noted that Dr. Heater plans to move to new quarters in a short time.

EDITORIAL COMMENT

Constructive Protest

Violent protest actions by youth are becoming increasingly intolerable to law-abiding residents of the North American continent. Back-alley riots were bad enough but violence on university campuses, among those who are expected to accept leadership responsibilities, present frightening possibilities for the future.

The deplorable action by students of Sir George Williams University in Montreal who caused $2,000,000 damage in a riot last week is unacceptable to Canadian taxpayers. A demand must be made that conditions that spawn violence and irresponsibility, be corrected and its advocates found and removed.

Violent protests do nothing but build additional barriers. Reasonable criticism and protest will help resolve problems and turn the wheels of progress.

Certainly youth should protest and criticize conditions it considers unjust --- but it should be done constructively.

U.F.O.s Back Again

Flying saucers are back in the news in a big way with reports last week of U.F.O.'s over a large part of northern Alberta.

A number of the reports have apparently been written off since as gags by young people who floated plastic bags around to help confuse the issue. However, it's unlikely that pranksters from Peace River, Beaverlodge, Valleyview, Grande Prairie, Barrhead and Namao all got together at the same time to produce a rash of flying objects. So it's likely that some of the objects reported were something other than floating garbage bags.

Widespread reports of unidentified flying objects have been substantiated by three Valleyview R.C.M.P. officers who watched a bright orange-red object in the night sky. Their sightings are supported by many other people throughout the northern area.

Understandably, some of the claims are a little far out, but many more seem to be sincere attempts by observers to describe something unusual, viewed only briefly. Those of us who have not yet enjoyed the pleasure of a flying saucer sighting are perhaps a little skeptical but should probably keep open minds on the subject.

Your Suggestions Invited

Don't forget the annual meeting of ratepayers on Monday, February 24th.

It is the one meeting of the year specifically designed to inform taxpayers of community progress. It is a time to review the past year and plan for the future. Council looks for your suggestions and recommendations in shaping the future of the town.

Your attendance is important.

Legislature Report

BY RALPH JESPERSEN, M.L.A.

On Thursday, February 13, the second Session of the Sixteenth Legislature of the Province of the Province of Alberta opened with all the color, tradition and dignity related to this important function.

The reading of the Speech from the Throne by His Honor the Honorable J. W. Grant MacEwan outlined very briefly and broadly the proposed legislation for this Session.

Tribute was paid to the Honorable E. C. Manning for conscientiously devoting over a quarter of a century to the leadership of this province, prior to his retirement at the close of 1968. Since this is Honorable H. E. Strom's first Session as Premier of the Province, recognition was paid to him also.

The Throne Speech covered such important subjects as change in Agricultural programs, grain drying, assistance to livestock breeders, a merger of the Hail Insurance Board and Crop Insurance Corporation and many more related programs.

The emphasis on development of our Human Resources will be co-ordinated in all government departments. Education in various facets will be considered; a School Act, Education of our Native Indian people. Special Committees of the Legislature will report with recommendations to The Workmen's Compensation Act, Methods for Redistribution of Legislative seats, Highway Safety and Automobile Insurance.

On February 14th, Mr. Roy Ells, M.L.A. from Grouard Constituency very dramatically moved the Throne Speech, praising the Government for their proposed program. Mr. D. Miller, M.L.A. from Taber seconded the Throne Speech. He also indicated his approval of the programs as outlined, both the M.L.A.'s suggested some possible new programs.

I would like to thank our local paper for allowing my weekly report going out through this media. These reports will be very brief and just give the general highlights. Therefore, if anything that may be referred to arises of special interest, I would like you to contact me and I would be happy to enlarge and further discuss the same.

WEEKLY VIEWPOINT

A series of brief meditations for the readers of The Western Review prepared by the clergy of the Drayton Valley Ministerial Association.

LENT

BY FATHER E. LYNCH

In a casual way, I would like to review Lent with you. Christians spend forty days in preparation for the events which are to take place in Jerusalem. During this time a particularly urgent summons to repentance goes out to us all. "Behold, now is the acceptable time; behold, now is the day of salvation" (2 Cor. 6:2). In Catholic Churches, the people's foreheads are marked with ashes in the outline of a cross to the accompaniment of the words, "Remember, man, that you are dust and to dust you will return".

THE WORDS COME FROM THE STORY OF THE FALL, AND BRING US DOWN TO EARTH - TO OUR MISERY. THE CROSS OF ASHES IS A SYMBOL WITH A PROFOUND TRUTH. IT HERALDS SIX WEEKS OF HONESTY WITH OURSELVES. WE STOP PUSHING AWKWARD FACTS OUT OF OUR MIND, WE RECOLLECT OURSELVES AND REFLECT, "REMEMBER, MAN". LENT IS ALSO A TIME FOR TRYING TO BETTER OUR LIVES - A TIME OF CONVERSION. IT IS A TIME OF PENANCE TOO, WHEN WE DEFEND OUR INNER FREEDOM AGAINST ALL THAT FIGHTS AGAINST OUR ATTITUDE OF SERVICE AND LOVE.

What are we asked to do in Lent? What about dancing, going to parties, drinking, and so on? Lent is a time of sober realism, not a time of feasting. "Watching", in the spirit of the gospel, we turn the spotlight of honesty on ourselves. We should have a certain soberness in our general style of life. Feasts and marriages are not celebrated without special cause. It is well to omit festivities in the ordinary affairs of life. Though this may perhaps cause us some embarrassment it is also possible for good to result when we are seen to abide sincerely by a certain style of life.

The above is a short review of Lent. If it has been informative in the slightest way, then it has been worth the time of preparation.

Large Crowd For Children's Dance

The largest children's Valentine party, sponsored by the Drayton Valley Elk's Club, was held this year. Last Friday evening, the 14th, an estimate of 375 children ranging from ages three to twelve years, gathered in the Elks Hall to enjoy themselves, and indeed they did, devouring over 75 pounds of hot dogs, 40 cases of pop, not to mention the donuts, cinnamon buns and ice cream which also disappeared like magic.

Hearty congratulations to the Elks on their community effort and a sincere thank you from the children.

It is nice to see Mrs. G. Hancock home again from the hospital at Stony Plain.

It is also nice to see Mrs. M. Rondial getting around without her crutches.

There have been several cars go into the lake here as the ice is very poor from the power plant east. So beware as you might be the next, if you drive out very far on the ice.

Mr. and Mrs. Roberts had their daughter and son-in-law Mr. and Mrs. McCullough and their son David of Edmonton out visiting at the weekend.

Guests at the home of Mr. and Mrs. R. T. Ward were Mrs. Mary Eckenswiller and Miss Grace Kennedy of Edmonton last Tuesday.

The W. I. meeting was held at the home of Mrs. H. Miller on February 12th with eleven members present. Mrs. E. Woollard, the president, called the meeting to order. Plans were completed for the whist and cribbage party.

Several other matters were discussed and voted upon. The roll call was an exchange of homemade valentines. After the meeting a lovely lunch was served by Mrs. Miller and Mrs. Roberts.

A lovely surprise was pulled on Mrs. Roberts by Mrs. Miller bringing in a birthday cake all lit up with candles and all sang "Happy Birthday", for which Mrs. Roberts gaspingly thanked them all. Mrs. F. Anderson was the winner of the tea prize.

Mrs. Roberts would be pleased if anyone having any news would phone her at 646-2214, as sometimes it is hard to catch up on news.

Today You Drive A Total Energy Plant — Tomorrow You May Live In One!

Natural gas has taken a new job!

Today it's being used as the sole source of energy for commercial buildings, industrial plants, apartment houses, schools and shopping centres, hotels and motels in cities across North America.

How?

By providing energy to power a single, self-contained system that supplies heating, cooling, steam, hot water and even electricity.

The system is like your car. A single source of power — provides energy to power a generator and supply electricity to operate "appliances" like radio and cigarette lighter, waste heat provides warmth in the winter, and of course, there is energy to drive the wheels. All of this energy comes from a reciprocating engine.

The same is true of natural gas "total energy" packages.

At the heart of the system is an engine, like the one in your car, or a gas turbine similar to the aircraft jet engine. In either case, natural gas is the source of power.

A generator, connected to the drive shaft of the engine, produces electricity.

This has been known for years as on-site power generation.

The total energy concept goes a step further. Like your car, it puts to work normally wasted heat energy from the engine to provide heat for the building. And, when summer comes this same waste heat cools the building in an absorption cooling system.

The total energy package has still another job.

Industrial plants use the captured heat to process petroleum products and sulphur, to dry pipe coatings, bricks and even hay. But this is just a start. There are infinite applications where total energy units can provide "free" heat for processing everything — from locomotives to the kitchen sink.

By supplying heating, cooling and electricity, total energy packages operating on natural gas fuel provide substantial savings and here in Alberta where we have an abundance of low-cost natural gas we are seeing more and more "total energy" plants going into service.

Council Studies Dog Control

Dog control was the subject of considerable discussion at last Thursday's Town Council meeting.

The Secretary-Treasurer reported that the recent census showed a dog population of 191. At the time of the meeting fifty license fees had been paid and the remainder notified that if licenses are not paid prosecution will follow.

When all dogs are licensed Council feels control will be possible by identifying animals running at large and then prosecuting owners for contravention of the Dog Bylaw. Council expressed the hope that citizens would cooperate in the dog problem by restraining their pets.

WARRIORS POST DOUBLE VICTORIES

The F.M.H.S. Warriors basketball club seems to be shaking its mid-season slump and posted two league victories this past week over Winfield and Thorsby.

Two team individual scoring records fell by the wayside as Ken Dusterhoft scored 61 points against Winfield for an individual team high and what is felt as probably an Alberta High School record for an individual in a single contest. Doug Ibbotson passed the team's individual season scoring mark of 391 points held until now by Jim Cathrea. He accomplished it by hitting for 33 points against Thorsby in the team's 87-44 victory last Friday.

The Warriors travel to Breton tonight (Wednesday) for another league contest that they must win in order to move into a first place tie with the Warburg Trotters. A win in Breton would force a league play-off with Warburg based on a home and home total point series.

The Warriors are not underrating Breton in this game as the Breton five are a real threat, and the most improved club in the area.

Saturday the Warriors take part in the Regional Championships to be held in Drayton Valley at the Frank Maddock High School. They will go against Evansburg at 9:00 a.m. Saturday morning.

The Warriors now hold a season record of 15 wins and 2 losses and the individual scoring to date is as follows:- Doug Ibbotson, 424; Keith Sodergren, 260; Ken Dusterhoft, 161; Larry Matoon, 135; Don Bouchard, 132; Terry Jevne, 84; Charlie Swap, 83; Ron Cameron 67 and Stan Oulton, 41.

Entwistle Church Setting For Rose - Walker Wedding

The Entwistle Community Protestant Church was the scene of a lovely winter-time wedding on Friday afternoon, January 31, 1969 at 2 p.m. when Miss Constance Brenda Walker, only daughter of Mr. and Mrs. Allen Walker of Magnolia, became the bride of Mr. Donald Douglas Rose of Darwell.

Reverend R. Koehn of Entwistle performed the double ring ceremony. Mrs. Norman Congo of Fallis played the wedding music.

The bride was escorted to the altar by her father who gave her in marriage.

The radiant bride wore a floor-length gown of poi d'elegance satin and chantilly lace. It featured long lace sleeves. The lace over-skirt which was held by a satin band ending in a bow formed a train. The chapel length veil was held in place by a nylon net coronet of red roses with white streamers, each ending with a red rose bud.

The three bridal attendants, Miss Sheron Rose, Miss Beverly Anderson and Miss Maxine June preceded the bride down the aisle. They wore identical floor length Royal blue gowns of poi d'elegance satin in Empire style. The Sleeves were elbow length. The three attendants wore white roses on corsage, white fur head bands and carried white fur muffs.

The best men were Terry Saunders, Larry Walker and Dale Rose. The ushers were Terry Rose, and John Waddell.

For her daughter's wedding Mrs. Walker chose a light blue suit with matching hat and white gloves. Her corsage was of pink roses.

The groom's mother, Mrs. Andy Portman, wore a two piece blue suit complemented with white accessories and pink roses en corsage.

After the ceremony, the bridal couple and their attendants drove in flower-decked cars to Mayerthorpe to have wedding pictures taken.

A reception was held at 6 p.m. in the Lake Isle Hall. The Lake Isle ladies catered for about 140 people. The bride's table was centered with a three-tiered wedding cake flanked by tiered yellow candles decorated with gold. The candle holders were made up of yellow roses and gold leaves. Reverend Koehn asked the blessing. Mr. Len Williams proposed the toast to the bride to which the groom ably responded. Mr. Cecil June was the Master of Ceremonies.

A wedding dance followed the reception. The music was provided by the Star-Lighters. A large crowd attended and report having had a good time.

For going away, the bride changed to a royal blue suit, white blouse and brown shoes and gloves. She wore a corsage of yellow roses.

The happy couple will make their home wherever Don's job takes them.

Out of town guests were from St. Paul, Slave Lake, Smith, Edson, Stony Plain, Tomahawk, North Surrey, B.C., Sangudo, Mayerthorpe and Edmonton.

MINOR HOCKEY

The season is getting on and our Minor Hockey players have had a full schedule of puck chasing since early November. To date we have had a good hockey season. The local community leagues at the Mite, Pee Wee and Bantam levels have met busy schedules. All-Star Bantam and Pee Wee teams have played a good number of games with teams from other centres and travelled to Edson to take part in Minor Hockey Day on February 2nd. When all the season schedules are completed and all games have been played, which will be somewhere around the end of March, a grand total of approximately 250 minor hockey games will have been played here this season. This all adds up to a lot of hockey over a winter season.

The climax of the local minor hockey season will be Minor Hockey Night, which will be held at the Centennial Civic Centre on Friday, March 7, starting at 7:30 p.m. All the Drayton Valley teams will take part with the Mites leading the way with a round robin series of 10 minute games with each team playing a total of two games as twenty minutes. All four Pee Wee league teams will take part as will the Bantam teams. With only three Bantam squads in the Drayton Valley and district league, the Pee Wee All Stars will take on a Bantam team to round out the evening's schedule. Attempts are being made to import a suitable Midget team from the surrounding area to play the Drayton Valley Clippers in the finale of the evening. Minor Hockey Night has been a great success since its innovation in 1967 and we look forward for a continuation of this success this season.

Something new here this year which has been a great credit to the game in the Drayton Valley Minor Hockey Officials Association, Charley Davies is the Referee in Chief and presently seven other men are working regularly with him in this very important phase of the program. They are: John Poloway, Gordon Hays, Reg Samis, Elmer Madsen, Pat Kane, Lyle McGinn and Alfred Lepp. Others who have helped out by working games occassionally during the season are Barry Johanneson, Murray Scott, Chris Thauberger, Ron Hemmingway, Rod Colbert, Gary Haack and Wayne Garding. The regulars are turning out three and four times a week to work local games at all levels. Generally one man travels on road games with our Midget team. One and all, they are doing a great job, calling fine games and they deserve a great deal of credit for the smooth operation of the hockey program here this season. To those regulars and to all the fellows who have helped us out in this work from time to time we wish to express our sincere appreciation for your donation of time and effort in doing a very, very difficult job exceedingly well at all times.

CARNIVAL COMING SOON

Hockey with its 242 participants makes up for half of the programed activities at the Centennial Civic Centre during the winter months. The other half, with an edge in participation is the Drayton Valley Figure Skating Club. They have some 250 participants this season. With the A.F.S.A. tests and more recently the C.F.S.A. examinations behind them, members of the club are now turning their attention to the big day of the Figure Skating year, Saturday, March 22, the annual Ice Carnival. Preliminary work has begun on the show for all persons involved, from here on, it will be full steam ahead, on to the carnival.

Another elaborate and varied performance is planned for this year's carnival which will be number fourteen in consecutive years here in Drayton Valley. The carnival took on a new dimension with the availability of the Civic Centre in 1967 and was the most impressive ever last year. As in years past, the carnival will be presented by the Drayton Valley Figure Skating Club and sponsored by the Drayton Valley Rotary Club with the proceeds going toward the operation of the Scout Hall and the local Figure Skating Club.

Church Service to Mark Baden-Powell Week

As we all know the Baden-Powell Week, from February 17 to 22, does not just cover our "Boy Scouts". In 1909 "Guides" were joined. When Baden-Powell called a rally, girls came forward and asked to join, however, this would not do, so "Guides" were formed. His sister, Miss Agnes Baden-Powell helped to make this possible. It was then realized the younger girls needed a name so they were called "Rose buds", they were not happy with this name, they wanted to be guides. In 1915 Baden-Powell solved the problem, and said why not call them "Brownies", everyone knew about the mischievous Brownies in fairy stories.

The number of Brownies and Guides increased rapidly, Baden-Powell's wife also became very involved.

Today we all know her as "Chief Guide of the World". In 1910, Canada's first Guide Company was registered at St. Catherines, Ontario. Today there are Guides and Brownies in thirty-five different countries, over two million of us.

Another point of interest be sure and see the Baden-Powell display window, on show are some of our own boys and girls handicraft. Make a point of going and see their achievements.

A non-denominal church service will be held on Sunday, February 23rd at 2:30 p.m. in the Cardium Theatre. All Scouts, Cubs, Guides and Brownies, and their parents and friends are urged to attend. A silver collection will be taken for charity.

The Scouts, Cubs, Guides and Brownies will meet at 2:15 p.m. at the Scout Hall on the Sunday, 23rd, from which they will parade to the theatre.

Allan Hicks and Blair Ibbotson also play played exceptionally well. The Junior High cheerleaders were also present.

REMODELLING

A number of families have contacted me with regard to remodelling. There are a number of important considerations. Is the house of sound structure?

Replacing the foundation, changing plumbing and wiring, adding insulation and reroofing can be so costly as to be unreasonable.

Will you have what you want?

If remodelling is extensive, cost of the remodelled house must be compared to cost of building a new one.

There is a family in the Edmonton area who have a large old brick house of sound construction and good design. For them to start over on a new house of comparable square footage would probably amount to several times the cost of remodelling.

CONCRETE BLOCKS

Several people have enquired about block houses. They're not too satisfactory for this part of the country since insulation is poor and water condenses on the walls.

ADVISORY COMMITTEE

The Strathcona advisory committee to the Department of extension - District Agriculturist and District Home Economist will be meeting on the 17th for an inservice training session.

Purpose of the committee is to give us some ideas of the problems in the country and how our service can best meet the needs of our people.

You're encouraged to give your ideas to any one of the members. The lady members on the committee are Mrs. Doris Jenkins of Bremner and Mrs. G. A. Horricks of Ministik.

Cattle Commission

The plan for a cattle commission which has been under considerable discussion for some time will likely be presented to the Agricultural Products Marketing Council at their next meeting in February.

The purpose of the proposed commission is to collect a levy of 10¢ per head on all cattle marketed. The money will be used for studying and improving marketing methods and grading standards as well as for other types of research and promotional programs.

The plan is being sponsored by the Western Stock Growers Association who have the backing of other cattle and farm associations.

Big Demand for Opportunity Kits

More than 150 requests for the Alberta Department of Industry and Tourism's "Business Opportunities Kits" have been received in the month since they were published.

A departmental official, announcing this, said that the motel kit was the most popular of the 25 categories surveyed on a town-by-town basis.

The 25 categories surveyed to show where business opportunities exist in the province are: accountants, auto body shops, bakeries, barbershops, beauty parlors, bowling establishments, dentists, doctors, drive-in theatres, drycleaners and laundries, family clothing and furnishing stores, hardware stores, household appliance stores, lawyers, meat markets, motels, movie theatres optometrists, shoe repair shops, sporting good stores, veterinarians and women's clothing stores.

Each category's kit has a map showing the dispersion of the particular type of store throughout Alberta, a selected list of centres where conditions appear opportune for the establishment of such a store, and a brief comment on the operation of similar stores in the province.

The department is prepared to analyze 20 other categories not on the above list. Further information on a specific business activity or population centre is available from the department.

FIRE CALLS

BY A. E. BRIDGES
Alberta Fire Commissioner

Here is a problem that could easily be solved. But how is it with you? Ask any person to go to the telephone as would have to be done when an emergency call to the fire department is necessary. Nine out of ten persons will be at a loss as to what number to call. Oh yes, you may check with the telephone book but what is to done in case it can't be found? Precious moments are lost and with each second of delay the fire department's chance of life rescue or fire control is diminished.

To memorize emergency telephone numbers including fire is difficult and certainly it is wise to check the number before calling to be sure the right number is used. Many people keep their emergency telephone number posted by their telephone. This is an excellent precaution but also it is well to have the number contained in a card folder along with usual identification cards ince you may be away from your own telephone when you discover a fire.

Your fire department can serve you in time of a fire emergency only if you and every member of your family has correct knowledge of how to bring this service into action. Any confusion or delay could be costly.

WARBURG NEWS

MISS V. LEHAY
Correspondent

The Warburg ladies held an apron and bake sale on February 14th at Max and Max Meat Market.

On the agenda for the next Warburg Home and School meeting are the following: discussion of high school semestering; proposed new school year; discussion regarding parent-teacher interview and other items. All parents are invited.

Three rinks composed of Warburg teachers competed in the A.T.A. Bonspiel held in Leduc on Saturday, February 8. The rink composed of Ed Kurley, Lawrence Kwiatkowski, Mrs. W. Broadbent and Mrs. G. Meinczinger took first in the third event.

A six week series of studies started on Wednesday 12 at 8:30 p.m. in the Thorsby High School Auditorium. The studies will alternate from the Thorsby and Warburg High Schools.

There is a two dollar registration fee for each family to cover the cost of study materials and various other items; for one person there is a charge of one dollar. Any money over the amount needed will go to a foster child sponsored by the Thorsby Christian Community.

Last Sunday and for the succeeding five Sundays there will be a documentary film introducing that week's study. A topic that will be under discussion will be "What is our Christian Duty in Our Community?" This and many other topics of concern to Christians will be discussed among fellow Christians of varied faiths.

John Wurban of Telfordville went by bus to Victoria to attend his sister's wedding.

A baby girl, to be named Christine, was born to Mr. and Mrs. Max Lememeyer on Thursday, February 6th. She was seven pounds and twelve ounces.

On Friday, February 7th the Warburg girls defeated the Drayton Valley girls 42 to 21. It was a good game. The teams were supported by their cheerleading teams.

A girl's basketball tournament will be held on February 27 and 28. Parents, students and other interested people are asked to come and support their Warburg girls' basketball team. All the profit coming from this tournament goes towards the payment of the boys' trip to the tournament at Consort. Advance tickets can be obtained from any member of the girls' team.

Miss Bhola Nath came home Tuesday from the Leduc Hospital where she was treated for a fractured foot.

Alice Duza and Lloyd Hintz of Edmonton, neice and nephew of Mrs. Mary Lehay were out to visit on Sunday afternoon.

Pat Raskauskas is in the Breton Hospital.

Don and Patsy McAllister and family of Edmonton were visiting with Phyllis and Neil McAllister, Charlies McAllister and other relatives over the weekend.

Brian Cunningham was home to visit his parents on the weekend. He is presently taking Physical Education at the U of A. When he receives his teaching certificate, he hopes to teach in Toronto for a few months.

Revisions to Exam System

Grade nine departmental examinations in the 1969-70 school year will be moved forward from June to March and will then no longer be the sole criterion for the promotion of pupils in schools throughout Alberta.

The Examinations Branch, Division of Instruction, Alberta Department of Education, has decided that the existing system of examinations prepared by the department which determines whether a student should be promoted cannot be supported in view of present educational objectives.

The Grade nine examinations were originally devised as a means of screening unsuitable students out of high school, but today the objective is for all students to have at least 12 years' education, be it vocational or academic, so the screening is no longer viable.

The real problem of your leisure is how to keep other people from using it.

TAX TIPS

This income tax column has been prepared by the Edmonton District Office, Department of National Revenue, Taxation. The questions used are common ones, and the answers usually straightforward. However, unusual circumstances sometimes alter the answer. If your question isn't answered here, or in the Income Tax Guide, phone 424-0251 in Edmonton or write National Revenue, Taxation Edmonton for free advice.

Q. What do I do, if after filing my return I discover it is in error?

A. If, after you send in your return, you have a change or add something do so by writing your district taxation office. DO NOT file another return and DO NOT write to Data Centre in Ottawa.

Q. Is is important to have every space completed on a return.

A. Every applicable space should be completed because incomplete returns cannot be processed at the Data Centre in Ottawa. They are sent back to the district offices for correction, a process that may involve actual contact with the taxpayer and only after such correction has taken place, can the form be returned to Ottawa for processing, a delay which may well hold up payment of your refund.

Q. It appears from my T4 slip that my employer has not deducted sufficient Canada Pension Plan contributions. May I pay the additional amount required and claim the increased deduction?

A. No, please do not make additional payments on your return, claim only the contributions per T4 slips. If it appears that you have been under deducted, check with your employer first, there may be legitimate reasons for not deducting full contributions. If you are satisfied that the required contributions have not been withheld, attach a note to your return stating that your employer has failed to withhold sufficient Canada Pension Plan contributions.

Q. May I treat the cost of clearing and breaking land as an expense?

A. Yes, if you are in the business of farming. See page 7 of the Farmer's and Fisherman's Guide for further details.

Q. I've heard a lot about the registration of charitable organizations for tax deduction purposes. As a donor to some charities, what should I know about this?

A. Canadian charitable organizations issuing receipts for income tax purposes must be registered, and all receipts issued for donations must show the registration number of the organization. If you have received a receipt which doesn't show this number, you should get in touch with the organization and obtain a proper receipt.

Q. I am claiming depreciation under Part XVII. Can I change to the Part XI method, or back again, in any later years?

A. You may change from Part XVII to Part XI, but you may not change back. In other words, once you claim under Part XI you must remain there.

Q. I have rented my farm out on a crop-share basis for the last five years. Would I still be able to average my income?

A. Yes. For averaging purposes, income from farm rental such as this is considered to be income from farming.

Last Second Shot Wins Game For Warburg Basketball Team

At 8:30 on Friday, February 7th, the Drayton Valley Warriors played against the Warburg Trotters in the best boys' basketball game that Warburg has ever seen.

The game started at a fast pace with Drayton scoring the first two points. At half-time Drayton led with 29 to 20.

In the last quarter, the tension built to the degree where the gym was in a constant uproar. By this time, there was no organized cheerleading by either team.

With a minute and forty seconds to play, the score was tied and when the regulation time expired the score was still 48 - 48.

The three minute overtime produced great crowd response. The tension on the players and the cheerleaders was very high.

With seven seconds left to play, Drayton was leading 54-53 The Warburg team forced the ball out of bounds with the press.

At one and a half seconds remaining the ball was fed in bounds to Loren Krukowski, who at a point a few feet past centre line, put up a long set shot which curved the ball down through the hoop just as the buzzer sounded to end the game. The score was 55-54 for Warburg.

At that time, as Loren later said, "everyone went A.W.O.L."

Loren Krukowski also said, "It's something you read about in books and dream about and when it happens to you, you don't know whether to lay down and die or what .... my mind went blank."
